

A made-to-measure program ON YOUR MARKS!... GET SET!... Go!

© 2019 SOVAR

PART 1 ON YOUR MARKS!

INITIATING THE BUSINESS PROJECT

OBJECTIVES

- Create the deep tech startup
- Validate the business project
- Structure the founders' team

CANDIDATES

- Graduate students, inventors and entrepreneurs who aim to launch a deep tech startup in the short term (6-12 months)

PROGRAM

- Assessment of the entrepreneurial skills of the project team
- Technical and commercial analysis of the product or service to be marketed
- Landscape of the market, competition and strategic positioning
- Validation of the minimum viable product
- Development of short business plan (business model canvas)
- Five 3-hours meetings with a technical project manager and a business coach for a total of 30 hours of personalized support

TRAINING PARTNERS

Needs assessment and reference to relevant training resources

PART 2 GET SET!

DEVELOPING AND IMPLEMENTING THE BUSINESS PROJECT

OBJECTIVES

- Set up a management team
- Devise the business model and go-to-market strategy
- Determine the financing strategy

CANDIDATES

- Startups at the pre-commercialization stage aiming to exploit a deep technology

PROGRAM

- Assessment of the commercial potential of the product, intensive coaching of entrepreneurs, development of a detailed business plan, financing search (presentation to Réseau Express-Québec), market access strategy (regulation, acceptability reimbursement)
- Assignment of a dedicated business coach for the duration of the mandate
- Periodic meetings over a period of 9 to 12 months for a maximum of 360 hours of personalized coaching based on milestones and monthly assessments (go/no-go)
- Expert professional services in accounting, tax, web strategy and business marketing, finance and legal services (up to 40 hours)
- Possibility of a pre-seed direct investment of SOVAR to launch the startup
